#### UNDERSTANDING YOUR INVOICE

Our invoices are produced in such a way that we offer complete transparency of the items that form your total charges. For the purposes of clarity, a "CR" amount in the body of the invoice indicates money received from or going to you. This may be a payment, refund or correction etc. A "DR" amount in the body of the invoice indicates a charge to you.

At the bottom of the invoice, the Balance section will display either "CR" or a "DR" amount. A credit amount "CR" means that your

account is in credit and you owe us nothing on this bill. The "CR" amount will be carried forward to your next bill and deducted from the total. A debit "DR" means that you are due to pay the amount quoted.
